

### Septic Inspection Order Form.

Please print clearly

❖ Prior to inspection we require from the county environmental health department a copy of the as-built, information page, and any repairs on file.

#### Order Information

- Walk over visual inspection and probing of the drain field area to check for saturation.
- Pumping and inspection of all treatment tanks (EXCLUDING pump and recirculation tanks).
- Excavation (we do everything by hand) as necessary to visually inspect all distribution boxes (if present), test all pumps and controls and evaluate the function of pumping or pressure dosed dispersal systems. **Water and electric must be turned on.**
